### **DAVID PIERCE JOINS EVERGREEN ENGINEERING IN EUGENE**

(EUGENE, OR) October 15, 2008 – Evergreen Engineering (Evergreen) announced that David Pierce, formerly a Project Manager for Plum Creek, has joined Evergreen. With an extensive background in project management in the wood processing industry, David will bring 27 years of experience from the composite panel industry working 7 years for Measurex as a Field Service Engineer, 16 years at Plum Creek MDF where he had positions as Measurex Field Service Engineer, Electrician, Quality Control Technician, Technical Sales Representative, and Plant Manager. David was the Project Manager for Plum Creek's woodyard upgrade, high energy refining, and their new HDF thin-board line. David also worked for Andritz for 4 years where he was the Global MDF Product Manager. David brings to Evergreen vast knowledge of the MDF and composite panel industry and will support Evergreen for process, marketing, and overseas coordination.
