**EVERGREEN ENGINEERING HIRES WILLIAM P. VAN NOSTRAND
AS BUSINESS DEVELOPMENT LEAD FOR ITS NORTHEAST U.S. OPERATIONS**

(HILLSBORO, OR) March 6, 2009 – Headquartered in Oregon, Evergreen Engineering (Evergreen) announces that William P. “Bill” Van Nostrand joins Evergreen as Business Development Lead for its northeast U.S. operations. With over 20 years of sales and marketing experience, Mr. Van Nostrand will focus on developing leads and nurturing new and existing client relationships for Evergreen’s nationwide offices.

Mr. Van Nostrand has extensive background in the food and beverage, power, and pharmaceutical sectors, coupled with expertise in the fluid transfer components and process automation industries. He has previously worked with Fortune 500 companies, government clients, and on new technology development.

“Bill’s addition to our team will enable us to tap into additional market sectors. With today’s tough economy and fierce competition, Bill joins our team at the right time,” states Emery Otruba, Albany-based Operations Manager for Evergreen. Together, Messrs. Van Nostrand and Otruba will lead the business development efforts for the northeast region.

“We’re very excited to have Bill on board with us, and, through his contacts and technical expertise, we look forward to continue developing and expanding our company’s breadth of clients and services with a focused plan,” declares Clem Wood, Managing Principal at Evergreen, overseeing the northeast region (among others).

Established in 1985, Evergreen Engineering is an engineering and construction consulting firm serving various industries such as bioscience, clean manufacturing, forest products, industrial manufacturing, light industrial, metals, microelectronics, semiconductor, and solar. Evergreen has a reputation of listening to clients’ objectives and being able to do projects other firms consider too difficult or impossible. Evergreen has offices in Eugene, OR; Hillsboro, OR; Albany, NY; Santa Clara, CA; Boise, ID; and Atlanta, GA with clients in the United States, Canada, Japan, and Russia.
